

HOW TO USE THE LIFE MAPS

Every phase is a timeframe in a kid's life when you can leverage distinct opportunities to influence their future. During each phase, there are critical conversations each child needs to have: Technological Responsibility, Sexual Integrity, Faith, and Health.

The Life Maps function as summary charts to inform parents and give an overall picture of the unique characteristics of each phase to help engage kids in these timely conversations. The maps help you see upcoming phases as well as phases they may have already traveled through.

The Life Maps are divided into sections by phase with specific strategies, questions, and words you can say to engage your kids in a meaningful, practical, age appropriate way.

The hope is that by identifying your child's developmental needs, you can parent with more intentionality and confidence.
